

# BIG IDEAS GAME CLOSET

# Top This

**Materials:** Number card sets numbered from -20 to 20, 1 coin

**Directions:** Play with a partner. One partner flips the coin to determine the operation, (heads—addition, tails—subtraction). The shuffled cards are placed face down in a stack. Each player takes two cards and computes the sum or difference using the determined operation. The player with the lower result takes all the cards from the round. If the result is a tie, each player keeps their own cards.

**Who Wins?** The player with the fewest cards at the end wins the round.

**Variation:** Deal the cards to each player. Players decide which cards to play to make the lower result.
