

## What About a Lesson Planner?

You can easily create lesson plans with **LessonView**<sup>®</sup>, a lesson planning tool from the makers of **ExamView**<sup>®</sup>. **LessonView**<sup>®</sup> allows you to build lesson plans with objectives, activities, and technology.

- Lesson plans and teaching resources can be associated with national, state, or local standards.
- Place a full year of paced lesson plans, mark completed lessons, and generate reports showing which objectives have been met.
- Adjust the calendar in response to unforeseen events—move a single day's plan or adjust an entire course.

The screenshot shows the LessonView software interface. The window title is 'LessonView - Bill'. The menu bar includes File, Edit, View, Course, Planner, Resource, Calendar, Address, and Help. The toolbar shows various icons for navigation and editing. The main content area displays a lesson plan for 'Using Formulas to Solve Problems Activity' on Thursday, March 5, 2009. The lesson plan includes an Activity Objective, Previous Learning, Vocabulary, Materials, and Pacing. It is divided into two main sections: 1. Introduction (5 minutes) and 2. Activity 1 (10 minutes). Each section has a 'Warm Up' and 'Targeted Resources' box. The 'Targeted Resources' boxes contain links to 'Start Thinking! and Warm Up', 'Homework Check', 'Answer Presentation Tool', 'Laurie's Notes', 'Record and Practice Journal', and 'Dynamic Classroom'. A sidebar on the right contains buttons for General Info, Lesson Plans, Teaching Resources, Calendar, and Address Book. A 'Completed' checkbox is visible in the top right corner of the lesson plan area.
