

## For the Visual Learner

Many vocabulary words in mathematics have similar meanings outside of mathematics. When this happens, we use the power of visualization to help students understand the word. We call this feature **The Meaning of a Word**.

● *Grade 6,  
Section 1.3*

### The Meaning of a Word ● Associate

You have two best friends. Sometimes you **associate** with one of them.

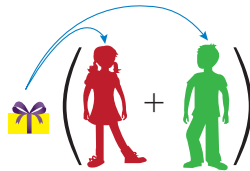

And sometimes you **associate** with the other.

● *Grade 6,  
Section 1.4*

### The Meaning of a Word ● Distribute

When you **distribute** something to each person in a group,

you give that thing to each person in the group.

● *Grade 6,  
Section 2.5*

### The Meaning of a Word ● Invert

When you **invert** a glass, you turn it over.
