

BIG IDEAS GAME CLOSET

Race to the Finish

Materials: 1 number cube, 1 pathway per group, 2 chips

Directions:

Players: 2

1. Players take turns rolling the number cube and substituting for x in the expression.
2. Players evaluate the expression and use that number to move their chip along the pathway. A positive answer results in a forward movement and a negative answer results in a move backwards.

Who Wins?

The player that reaches the FINISH first wins.
