

BIG IDEAS GAME CLOSET

It's All About the Details

Materials: Geometry Game Cards, paper and pencil

Directions: Play in groups of 2. Students shuffle the geometry cards and place them face down on the table. A student turns over 1 card. Both students write as many details as possible about the figure, (right angles, equal sides, etc.)

Who Wins? The student with the most correct details wins the round. Play continues until all cards are turned.
