

B Study Help

You can use an **information wheel** to organize information about a concept. Here is an example of an information wheel for absolute value.

On Your Own

Make an information wheel to help you study these topics.

1. integers
2. adding on a number line
3. subtracting on a number line
4. fractions on the number line

After you complete Section B.7, make information wheels for the following topics.

5. decimals on the number line
6. adding and subtracting fractions
7. adding and subtracting decimals
8. the coordinate plane
9. ordered pairs
10. quadrants
11. graphing

"I decided to color code the different flavors in my **information wheel**."
