

5 Standardized Test Practice

1. A set of data is shown below. Two of the data are missing.

8, 2, 10, 4, 8, 4, 8, 8, _____, _____

The mean of the complete set of data is 6, and the median is 7. What are the two missing data?

- A. 1 and 7 C. 4 and 4
 B. 2 and 6 D. 6 and 6
2. What is the area of the shaded region in the figure below? (Use 3.14 for π .)

- F. 21.5 cm^2 H. 80.375 cm^2
 G. 60.75 cm^2 I. 84.3 cm^2
3. A clockwise rotation of 90° is equivalent to a counterclockwise rotation of how many degrees?

4. You are building a scale model of a park that is planned for a city. The model uses the scale below.

1 centimeter = 2 meters

The park will have a rectangular reflecting pool with a length of 20 meters and a width of 12 meters. In your scale model, what will be the area of the reflecting pool?

- A. 60 cm^2 C. 480 cm^2
 B. 120 cm^2 D. 960 cm^2

Test-Taking Strategy
Solve Problem Before Looking at Choices

Your paw has an area of 2 in.^2 . A hyena's paw is twice as long. What is its area?
 (A) 4 in.^2 (B) 6 in.^2 (C) 8 in.^2 (D) 10 in.^2

"Solve the problem before looking at the choices. You know area increases as the square of the scale. So, it's 8 in.^2 ."

5. In the figure, $\triangle EFG \sim \triangle HIJ$.

Which proportion is *not* necessarily correct for $\triangle EFG$ and $\triangle HIJ$?

F. $\frac{EF}{FG} = \frac{HI}{IJ}$

H. $\frac{GE}{EF} = \frac{JH}{HI}$

G. $\frac{EG}{HI} = \frac{FG}{IJ}$

I. $\frac{EF}{HI} = \frac{GE}{JH}$

6. Brett was solving the equation in the box below.

$$\begin{aligned} \frac{c}{5} - (-15) &= -35 \\ \frac{c}{5} + 15 &= -35 \\ \frac{c}{5} + 15 - 15 &= -35 - 15 \\ \frac{c}{5} &= -50 \\ \frac{c}{5} &= \frac{-50}{5} \\ c &= -10 \end{aligned}$$

What should Brett do to correct the error that he made?

- A. Subtract 15 from -35 to get -20 .
- B. Rewrite $\frac{c}{5} - (-15)$ as $\frac{c}{5} - 15$.
- C. Multiply both sides of the equation by 5 to get $c = -250$.
- D. Multiply both sides of the equation by -5 to get $c = 250$.

7. In the figure below, $\triangle ABC \sim \triangle DEF$.

What is the value of x ?
